Tonkin Replicas Press Release

Introducing the Cat® 555D Skidder Scale Model

Tonkin Replicas announces the production of the Cat® 555D Skidder scale model in 1/50 scale. Consistent with the Tonkin Replicas standard, this model features many details and movable parts. The 555D Skidder scale model has a fully operating grapple, arch, boom and blade. It is also equipped with a metal cab with mesh protection, metal FOPS bars protection, rubber tires, and the standard Tonkin Replicas metal hand rail.

The Cat® 555D Skidder scale model will be available in August/September of 2015. This is the largest skidder in the Cat Forestry Group lineup of real machines.

Information About The Company

Tonkin Replicas is based in Seattle, WA. Since 1970, Tonkin Replicas has built diecast model trucks for all major North American truck OEM's. They sell their customized models to trucking companies, OEM dealers, industry suppliers, and they count some of the worlds' largest transportation companies as their customers. Tonkin Replicas has been a Cat licensee since 2012. Tonkin Replicas opened a new site in Europe on July 1st that is responsible for the sale and distribution of the Tonkin range in the EAME territory.
